EDUCATION

National Institute of Technology, Delhi

Nov 2022 – Present

B.Tech - Major: Electrical Engineering; Minor: AI and ML

CGPA: 7.51

Army Public School, Meerut

Apr 2020 – Mar 2022

Senior Secondary School Certificate

Percentage: 96.2%

St.Mary's Academy, Meerut

Apr 2019 – Mar 2020

Secondary School Certificate

Percentage: 94.2%

EXPERIENCE

GlobalLogic: Agent Architect Intern [↗](#)

June 2025 – Aug 2025

- Developed MCP compliant tools and orchestrators that enabled scalable LLM-to-tool communication, reducing manual query handling by 70%.
- Built A2A pipelines with FastAPI improving agent execution speed and response accuracy
- Automated multi-agent workflows with critic evaluation and LLM refinement, boosting overall system efficiency and output quality by a factor of 0.8

Incedo Inc: Data Science and AI Intern [↗](#)

June 2024 – Aug 2024

- Developed innovative GenAI and ML solutions using advanced ML algorithms, LLMs, RAG pipelines, and Transformer models, boosting NLP query response accuracy by 60%.
- Enhanced data processing efficiency through Neural Network architectures and Lang Chain.
- Spearheaded the development of brAIIn spark, reducing query resolution time by 40% while ensuring secure handling of sensitive client data.

PROJECTS

IntellectMesh | Model Context Protocol | React | A2A

[G](#) [Github](#)

- Developed a distributed Agentic AI system using FastAPI and MCP, enabling autonomous tools such as a scraper, critic, and LLM refiner to self-register, resolve each other dynamically, and collaborate through a structured A2A communication workflow.
- Implemented remote agent orchestration using dynamic ngrok tunnels, allowing multi-machine integration of AI tools without requiring static IPs or manual network configuration.

Mall Sphere | Tailwind CSS | Express js | SQL

[G](#) [Github](#)

- Designed and implemented ShopSpectra, a centralized Mall Management System for seven malls, enabling shop exploration and customer engagement with interactive dashboards.
- Integrated a secure transaction repository and customer review system, ensuring transparency, security, and enhanced user engagement within the platform.

BidMatch | Chroma | LangChain | Hugging Face

[G](#) [Github](#)

- Developed a tool to analyze RFPs, improving bid evaluation accuracy by 30%, matching user-defined conditions with company data, and presenting the top bids with detailed analysis.
- Automated the comparison of bids, reducing processing time by 50% and highlighting the most relevant options based on both qualitative and quantitative criteria.

TECHNICAL SKILLS

Languages: Python, Java, C

Libraries & Frameworks: React, LangChain, NumPy, Pandas, Matplotlib

Tools & Technologies: MySQL, PowerBI, HTML/CSS, JavaScript

Core CS Concepts: Object-Oriented Programming (OOPs), Operating Systems (OS), DBMS, Data Structures and Algorithms

ROLES AND RESPONSIBILITIES

Senior Coordinator, Training and Placement Cell: NIT Delhi

Organized and hosted impactful career guidance workshops, spearheaded over 10 placement drives.
