PROFILE SUMMARY

Software Engineer skilled in C++, Python, and JavaScript with a strong foundation in object-oriented programming, data structures, and algorithms. Experienced in developing full-stack applications and REST APIs using React.js, Next.js, Node.js, Flask, TensorFlow, and MySQL. Focused on integrating machine learning models to build robust, data-driven systems that enhance user experience and application performance.

EDUCATION

National Institute of Technology Delhi — New Delhi, Delhi CGPA: 7.20
Bachelor of Technology in Electrical Engineering, Minor in AI/ML Graduating 2027

Bharatiya Vidya Bhavan Vidyashram — Jaipur, Rajasthan Percentage: 96.2%
Senior Secondary, Class 12th Completed June 2022

WORK EXPERIENCE

Research Intern – DAVISE Lab, NIT Delhi June 2025 - August 2025

- Designed an ML model (Random Forest, SVM) for water contamination detection, achieving 93% accuracy.
- Built an IoT-based anomaly detection system, reducing false alerts.
- Contributed to research publications with data visualization (Matplotlib, Seaborn).

PROJECTS

BingeBuddy | Machine Learning, Python, Flask, Next.js, Tailwind CSS |  | 

- Created a **movie recommender platform** using **cosine similarity-based** content filtering for personalized suggestions.
- Trained the model on the TMDB dataset, leveraging movie metadata to capture content similarities.
- Achieved an 87% recommendation accuracy, delivering highly relevant movie suggestions.

PeerTalks | React, Next.js, Node.js, Express.js, Socket.IO, TailwindCSS, MySQL |  | 

- Developed a full-stack chat platform with features including **user search**, **friend requests**, and **user status**.
- Implemented **real-time communication using Socket.IO**, achieving instant message delivery with negligible latency.
- Designed MySQL database schema and optimized database queries, reducing data retrieval time by 35%.

Toonie | React, Next.js, Node.js, LLMs, p5.js, Zustand |  | 

- Created an **AI-powered 2D animation platform** converting natural-language prompts into runnable p5.js sketches.
- Engineered code generation and refinement workflows that cut manual boilerplate writing by 80%.
- Developed advanced features, including **clip recording**, **a persistent media library**, and **a timeline composer**, exporting videos with 25+ clips at smooth 60fps.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, HTML, CSS, SQL

Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Node.js, Express.js, Flask, TensorFlow, Scikit-Learn, XGBoost, Random Forest, SVM

Areas of Expertise: Full Stack Development, Machine Learning, UI/UX Design

Developer Tools: GitHub, MySQL, VSCode, Figma, Jupyter Notebook, Visual Studio

ACHIEVEMENTS

- Secured an All India Rank of 20,000 in JEE Mains among 10,00,000+ candidates.
- Solved 250+ Data Structures & Algorithms-based problems across LeetCode, GeeksforGeeks, and TakeUForward.
- Semifinalist in Flipkart GRiD 7.0 securing place among top 700 participants out of 4,84,000+ candidates.

EXTRA-CURRICULAR

Training & Placement Cell, NIT Delhi: Social Media Team Lead Dec 2025 - Present

Clairvoyance (Photography Club), NIT Delhi: Executive Member (Graphics Team Lead) Oct 2023 - Present

Technical Club, NIT Delhi: Executive Member (Graphics Team Lead) Sep 2023 - Present
